1868 Remarks &c.

August 17th Saw sperm whales 3 or 4 at 11 o'clock A.M. at 12 struck and turned his upper boat, followed the whales the other boats towing. It being calm at 4 P.M. came up the whales also got the lead whale along side at 5 P.M. commenced cutting and finished all but the head at 8 1/2 P.M. Tuesday morning took the head Wednesday rolled sperm whale turned up at the cooler 53 barrels

Sept 1st got two sperm whales at daylight going to the windward got tied must have seen the ship just before light lowered three boats but did not see the whales afterwards

Sept 11th first part moderate gale under double reef top sail and fore sail at eight o'clock raised sperm whales kept them in sight until three o'clock P.M. then lowered three boats the west boat went on and struck two whales the boat-stewer thought he was not fast solid with first iron he started the second iron at another whale but as good luck would have it the short warp parted and in a few minutes they killed the one they were fast to and took him to the ship the other two boats chasing to the leeward had just got the fluke chain on ^{the} ~~the~~ ^{whale} when I observed a whale on the weather bow kicking concluded it must be the other fast whale sent the second mate up there with the starboard Boat and struck him I then took the west boat and went to his assistance turned him up and took him to the ship at nine o'clock P.M. the other boats got aboard at 8 P.M. Instead of losing both whales as might have been expected we saved them both and brought them along side. At 5 o'clock A.M. Sunday commenced cutting it being quite smooth parted the lead stave and the second best fluke chain but succeeded in getting on both whales all but the heads making the best cutting taking the three whales to gether I ever saw although quite ragged spoke the S. H. Twine 18 months out 200 sperm the Captain had got hurt by a whale cutting gave him some castor oil and R. I. rum. Sea & Wind moderate gale took in both heads and bailed the cases started the works at three o'clock P.M.

Remarks &c.

Tuesday the 9th blowing a gale with heavy rain
got up weather sail and hoist on boiler at
six P.M. moderated and stopped raining and
have lost some oil it rained so and heavy rain
on 9 could not keep the ship from sloping
lost 5 barrel of oil
Wednesday 10th moderate gale still under close reef
main top sail occupied boiling setting up chocks
Thursday 11th still blowing a gale sloped only one
sea the day still hotly from heat of sun
down ship with the oil
Friday 12th blowing a heavy gale put 3 asties
of the soap in the blubber room also finished
boiling heat to cut over most all of our blubber
is it is impossible to tell how much the whole
made probably about 120 bbls. probably lost 100 bbls
barrel of oil if any ship can take two such whale
lumbered up as we are and not lose more oil
they deserve praise
Saturday 14th the sick man returned to duty all night
Friday 25 raised a school of small whales lowered
down three boats my ship repairs are worse than
before it is impossible to lower my boat when
there is anything to be done and lay a back at two
o'clock P.M. Boat Boat went on and struck the whale
back to just long enough for the waist to
strike then went off to the windward. Took
our whales along side and commenced cutting at
4 1/2 P.M. finished cutting at eight
Saturday 26th Started the work at 4 o'clock A.M.
at 4 P.M. raised sperm whales lowered down
three boats Starboard boat went on and struck
I then went on and struck in killing him
the waist got ensnared and lost a few
board pieces and other light things Turned
him up and took him along side at 10 P.M.
it being a very large whale
Sunday 27 commenced cutting at 4 o'clock A.M.
finished cutting and got the case hoisted at
8 o'clock P.M. and under parted in rope yarn
everything worked first rate
Monday 28th commenced boiling setting up chocks
cutting lines cutting up blubber etc.

 judgment in starting at the right part
 of the whale Chased the whale untill
 16 P.M. but could not get near him again
 I think this rather a hard streak of luck
 & about time to turn over a new leaf

1864

Remarks

- Dec 20th Picked up a spar that will make a fine top mast or top gallant mast. Gave Mr. Waldron my boat as she sails better than ~~his~~ his Mr. Blumy taking his. Occupied fitting one of the old boats for myself as the bow boat is very leaky & think about used up.
- Dec 25th Raised Sperm Whales at Daylight at 8 AM. lowered three boats Mr. Waldron went on and struck & then lowered Mr. Dabney with Robert to steer him they got down to Mr. Waldron after his whale was dead & as his boat sails very fast he let him (Mr. Dabney) take the whale along side he then went on after the other boats & whales in about 4 hours Mr. Blumy went on and struck another whale Mr. Waldron shot a bomb and killed and then kept up the chase untill 4 O'clock P.M. & took the last whale along side at 4 P.M. commenced cutting at 5 P.M. & finished cutting one of them at half past 7. Tashed down & set the watch at 8 Good weather.
- Dec 26th Commenced cutting at 5 A.M. finished & cleared away cases & started the work at 11 A.M. rest of the day boiling saw several Merchantmen & a few fin backs.
- Dec 27th Occupied boiling thick fog & nearly calm.
- Dec 28th Finished boiling at 9 P.M. turned up 85 lbs. fine weather saw one sail.

Lowered three barbed boats Starboard board
struck Mr. Waldron got knocked overboard
Waist Boat being handy Keene held on line
and I lowered & headed him off & succeeded
in killing the whale I think perhaps we
should have got both whales if Mr. Waldron
had not with the accident. The whale sunk
had quite a job to get him to the ship & used up
some line finally succeeded & cut him &
started the works at 10 O'clock P.M.
- Nov. 14th Ceased boiling raised a Right whale in the
wake at 10 O'clock he got quite shy again
I we lowered for him about an hour when
